

Mental Calculation Competition 2024

Rules and Regulations

1. Each participant will receive a set of questions consisting of 10 mental addition and 10 mental multiplication questions.
2. Questions will be placed face down, and participants may not view them until the clock starts.
3. Participants have a maximum of 10 minutes to complete all 20 questions. The objective is to achieve as many correct answers as possible within the given time.
4. The order of question completion is irrelevant.
5. Accuracy of answers holds greater importance than speed or time taken.
6. No calculation aids, including rulers or written calculations, are allowed. All calculations must be mental. Participants using written calculations on answer sheets will be disqualified.
7. Answers must be written clearly to prevent misinterpretation during grading.
8. Once participants complete their answers, they should place their paper face down and promptly raise their hand for collection by the invigilator, who will record the timing.
9. Participants continuing to write after the allocated time will be disqualified.
